OUTLOOK FOR 2020 WITHDRAWN ON MARCH 19, 2020:

Fiskars Corporation withdrew its guidance on the outlook for 2020, which was issued on February 5, 2020. Due to the coronavirus outbreak, the comparable EBITA is unlikely to increase in 2020. The COVID-19 -pandemic will have a significant negative impact during the second quarter of the year. As the situation evolves rapidly, it is too early to make reasoned estimates on the potential impact for the full year. Fiskars expects to guide the outlook for the full year 2020, once a more reliable estimate on the potential impact can be made. More detailed discussion on potential risks can be found in the Risks and business uncertainties -section of this interim report.

1) Comparable net sales excludes the impact of exchange rates, acquisitions and divestments

2) Items affecting comparability in EBITA includes items such as restructuring costs, impairment or provisions charges and releases, integration related costs, and gain and loss from the sale of businesses

CEO'S REVIEW

We had a strong start to the year with the business performing above the previous year's level in January-February. However, the COVID-19 pandemic started to impact our business in phases, beginning in Asia, and spreading across all our key markets during the first quarter.

The quarter ended with a year-on-year decrease both in comparable net sales and comparable EBITA for the full quarter. We saw good development in several areas, especially in the Terra and Crea segments in the Americas and in the Terra segment in Central Europe throughout the quarter. In addition, our own e-commerce channel continued to see growth in the double-digits. At the same time, store closures in several markets and the severe decline in consumer demand in March impacted the performance of the Vita segment in particular.

As we started to see an impact on demand, we withdrew our guidance for 2020 on March 19, 2020. We expect to guide the outlook for the full year 2020, once a more reliable estimate on the potential impact can be made.

The beginning of the year was intense in many ways. We completed the organizational changes as the new structure, which was announced in late 2019, became effective. With these changes, we are in a better position to work together as one company, which is especially important as we navigate through these exceptionally difficult market conditions.

We are taking proactive steps to lessen the negative impacts of COVID-19 on our operations around the world. We have implemented temporary layoffs or similar measures in several parts of our business, from factories, distribution centers and stores to offices. In addition, we have implemented other savings initiatives. The business situation is being continuously monitored, and further actions will be taken as necessary.

While we continue to minimize our cost base, we remain focused on our strategic initiatives. The rollout of our new e-commerce platform continues, with several brands coming up during the second quarter. The brand revitalization of Wedgwood and Royal Doulton proceeded during the first quarter with consumer outreach rollout in several markets. At the same time, we are working on capturing growth opportunities in the markets which are returning to more normal operations.

The entire leadership team is determined to drive the company forward in these exceptional circumstances. Our solid balance sheet helps us navigate these challenges and our purpose of making the everyday extraordinary provides us with a clear direction to pursue growth.

OPERATING ENVIRONMENT IN Q1 2020

The operating environment worsened significantly in all relevant markets throughout the latter part of the first quarter of 2020, as a result of the COVID-19 -pandemic. This led to a decrease in consumer confidence throughout the markets.

The importance of e-commerce increased, as brick-and-mortar stores have been temporarily closed in many markets and movement has been restricted. In the retail space, many department store chains have come under renewed pressure resulting from the pandemic. Consequently, the situation has accelerated the shift from traditional players to e-commerce.

Within the gardening and DIY channels, stores in many markets have been kept open and the impact has been less severe.

Net sales increased in the watering and gardening categories, both of which developed positively in the Americas and Central Europe. In the Americas, the DIY stores have mostly been kept open. In Europe, however, there have been some closures and somewhat decreased traffic to stores. Snow tool sales in the Nordics and Baltics decreased due to the mild winter.

In the outdoor category net sales decreased, weighed down by a decline in government orders. Many sporting goods stores in the Americas have been closed, which also impacted net sales in this category.

Comparable EBITA in the Terra segment decreased during the quarter, and amounted to EUR 19.3 million (21.9). The comparable EBITA decreased as a result of increased marketing spending related to the expansion in Central Europe and a weaker product mix.

MARKETING HIGHLIGHTS IN Q1 2020

This enables customers to order a customized knife from a wide range of blade shapes, materials, colors, illustrations and patterns. This advances the Gerber product portfolio and supports direct consumer relationships.

In January, Fiskars presented to international press and influencers its first ever garden wear collection designed in collaboration with designer Maria Korkeila. The launch event held at the Pitti Uomo exhibition in Italy gained significant international visibility for the collection and for the Fiskars brand. The collection will be exclusively available on fiskars.com from the spring of 2021.

The spring Gardening Happiness Campaign was launched across all European markets. Fiskars presence was strengthened with solid in-store presence, which was supported by a holistic media campaign.

RESTRUCTURING PROGRAM

In December 2019, Fiskars Group published its plans to change its organizational structure and simplify the organization to continue to build one company with a common purpose, strategy and values.

Fiskars Group also launched a company-wide Restructuring Program, aimed at reducing costs. The savings are expected to come from a wide range of areas, including the removal of overlaps in the organization, simplified processes and ways of working, and reduction of workforce. As part of the program, the company will look for synergies and efficiencies in the selling and administrative spending. In addition, the company will evaluate the entire supply and distribution network for efficiency improvements.

The program will target annual net cost savings of approximately EUR 20 million, subject to the full implementation of the program. The targeted cost savings are expected to be achieved gradually, and the majority of the savings are expected to materialize in the Group's results during the program, which is estimated to be completed by the end of 2021.

The total costs of the program are expected to be approximately EUR 30 million by the end of 2021, of which EUR 7.0 million had been recorded by the end of March 2020. They will be recorded as items affecting comparability (IAC) and have a cash flow impact. At the same time, Fiskars Group continues investments in growth initiatives that are expected to add sustainable value in the long-term, e.g., in e-commerce and new business opportunities.

TRANSFORMATION PROGRAM

In October 2018, Fiskars Group launched a Transformation program in its former Living segment aimed at increasing efficiency, reducing complexity and accelerating long-term strategic development.

The program will target annual cost savings of approximately EUR 17 million, subject to the full implementation of the program. The targeted cost savings are expected to be achieved gradually, and the majority of the savings are expected to materialize in the Group's results after the program is completed, which is estimated to be by the end of 2021.

The total costs of the program are approximately EUR 40 million in 2018–2021, of which EUR 19.8 million had been recorded by the end of the first quarter of 2020. The costs are recorded as items affecting comparability (IAC).

RISKS AND BUSINESS

UNCERTAINTIES

Fiskars Group's business, net sales, and financial performance may be affected by several uncertainties. Fiskars Group has detailed the overall business risks and risk management in its Annual Report and on the company's website at www.fiskarsgroup.com/investors.

The COVID-19 pandemic continues to impact societies around the world. The situation and its development varies by country, and visibility is low. As restrictions of movement start to be lifted in many countries, the risk for new waves of the pandemic increases, which makes the risk for the financial performance of the company more significant. In particular, the development of the pandemic and its consequences to the U.S. market is considered material, as it is the single largest market for Fiskars Group.

Fiskars Group imports and exports products from/to the UK. The UK's expected withdrawal from the EU, may have an adverse impact on Fiskars Group's comparable net sales and comparable EBITA in 2020. It can be assumed that failure to reach a second deal by the end of 2020 would lead to increased costs, additional workload on both sides, and trade disruptions in the form of tariffs and regulatory barriers. The long-term effect of changes in laws, regulations, taxes and other implications following the withdrawal and results of the upcoming deal negotiations as well as any possible impact on consumer confidence are difficult to estimate.

A considerable part of Fiskars Group's business is in the U.S. The increasing uncertainty regarding trade in the form of for example tariffs might have an impact on the company's business, as part of the product portfolio sold in the country is imported. Based on the information available at the moment, a further increase in tariffs might have a significant impact on the comparable EBITA in 2020.

Demand for some of the Group's products is dependent on the weather, particularly garden tools and watering products during the spring and snow tools during the winter. Unfavorable weather conditions such as cold and rainy weather during the spring or no snow in the winter can have a negative impact on the sale of these products. The sale of homeware products is heavily geared towards the last quarter of the year, and any negative issues related to product availability or demand during this

quarter could affect the full-year result of this business significantly.

Fiskars Group operates globally, with a considerable part of its business in the U.S. and in other countries outside of the euro zone. Weakening of the U.S. dollar or other currencies relative to the euro may have a material impact on the reported financial figures due to the translation exposure. Less than 20% of Fiskars Group's commercial cash flows are exposed to fluctuations in foreign exchange rates.

Fiskars Group entities are subject to tax audits in several countries. It is possible that tax audits may lead to a reassessment of taxes. The tax reassessment claim raised by the Finnish Large Taxpayers' Office in 2016, was appealed to the Administrative Court, which maintained the decision that obligated the company to pay a total of EUR 28.3 million in additional tax, interest expenses and punitive tax increases. Fiskars Group will seek further appeal from the Supreme Administrative Court, and the process may take years. The dispute concerns intra-group loans forgiven by the company in 2003 and their tax treatment in subsequent tax years.

RESEARCH AND DEVELOPMENT

The Group's research and development expenditure totaled EUR 4.9 million (Q1 2019: 4.3) in the first quarter of 2020, equivalent to 1.9% (1.6%) of net sales.

PERSONNEL

The average number of full-time equivalent employees (FTE) was 6,374 (Q1 2019: 7,029) in the first quarter. At the end of the quarter, the Group employed 6,333 (7,018) employees, of whom 1,006 (1,002) were in Finland.

On April 8, 2020, Fiskars Group announced the appointment of James Brouillard as Executive Vice President, Business Area Terra and member of the Fiskars Group Leadership Team. He started in his position on April 20, 2020, and reports to the Group's Interim CEO Sari Pohjonen.

OTHER SIGNIFICANT EVENTS DURING THE REPORTING PERIOD

On March 19, 2020, Fiskars Corporation withdrew its guidance on the outlook for 2020, which was issued on February 5, 2020. Due to the corona virus outbreak, the comparable EBITA is unlikely to increase in 2020. As the situation evolves rapidly, it was too early to make reasoned estimates on the potential impact. Fiskars expects to guide the outlook for the full year 2020, once a more reliable estimate on the potential impact can be

made.

The ex-dividend date for the second instalment would be September 9, 2020, the dividend record date for the second instalment would be September 10, 2020 and the dividend payment date September 17, 2020, at the latest.

The Annual General Meeting decided to adopt the Remuneration Policy for the governing bodies.

EVENTS AFTER THE REPORTING PERIOD

Fiskars Group's new organizational structure effective

At the beginning of April, Fiskars Group's new organizational structure became effective, as the organization was simplified in line with the announcement on December 4, 2019. Following the change, the company is organized around three Business Areas, global Sales and Consumer Experience & Growth functions, as well as Supply Chain and other Global Functions. The company is targeting annual net cost savings of EUR 20 million by the

end of 2021, by renewing the organizational structure and increasing efficiencies. Additionally, the financial reporting structure will change.

The new organizational design was expected to lead to a net reduction of approximately 220 employees in office roles globally. Employee consultations in Finland started on January 20, 2020 and covered altogether 476 employees in office roles. The possible reduction of employees was estimated to affect a maximum 60 employees in Finland. The changes resulted in a total net reduction of 220 positions in office roles globally, of which 31 were in Finland.

Tax decision by the Administrative Court

On April 9, 2020, Fiskars Corporation received a tax decision from the Helsinki Administrative Court, which maintained the decision that obliged the company to pay EUR 28.3 million in additional tax, interest and punitive increases as a result of a tax audit carried out in 2014. The decision concerns intra-group loans forgiven by the company in 2003 and their tax treatment in subsequent tax years.

Fiskars Corporation considers the decision unfounded and will seek appeal further from the Supreme Administrative Court.

The reassessment decision had a negative effect of EUR 28.3 million on the cash flow during the third quarter of 2016. Fiskars Corporation has disclosed the ongoing tax appeal process in the earlier Annual Reports and Interim Reports. The company and its external advisors continue to consider the decision unfounded and do not recognize the related taxes and other costs in the income statement.

Fiskars Group President and CEO Jaana Tuominen to step down, CFO Sari Pohjonen appointed interim CEO

On April 21, 2020, Jaana Tuominen resigned from her position as President and CEO of Fiskars Group. CFO Sari Pohjonen was appointed interim CEO. The Board of Directors has begun the recruitment process for a new CEO.

OUTLOOK FOR 2020 WITHDRAWN ON MARCH 19, 2020

Fiskars Corporation withdrew its guidance on the outlook for 2020, which was issued on February 5, 2020. Due to the coronavirus outbreak, the comparable EBITA is unlikely to increase in 2020. The COVID-19 -pandemic will

have a significant negative impact during the second quarter of the year. As the situation evolves rapidly, it is too early to make reasoned estimates on the potential impact for the full year. Fiskars expects to guide the outlook for the full year 2020, once a more reliable estimate on the potential impact can be made.

Previous outlook:

“In 2020, Fiskars expects the comparable EBITA to increase from 2019. Fluctuations in currency rates might have a considerable impact on comparable EBITA.

Fiskars continues to invest in future growth and is focused on improving profitability through the ongoing transformation programs, which are expected to be completed by the end of 2021. Therefore, the company is not providing an outlook for comparable net sales for 2020. Furthermore, there are uncertainties in several key markets, such as potential changes in tariffs or repercussions from the novel corona virus outbreak that could have an impact on the full year development.”

EXCHANGE RATE SENSITIVITY OF THE OPERATIONS

Less than 20% of Fiskars Group's commercial cash flows are exposed to fluctuations in foreign exchange rates. The most significant transaction risks relate to the appreciation of THB and IDR, and depreciation of SEK, AUD and JPY. The following table presents the estimated annual net commercial cash flows in the most significant currencies:

EUR million	THB	SEK	USD	AUD	JPY	IDR	GBP	CAD

*Illustrates the impact of 10% depreciation of the currency against EUR on the Group's annual profit before taxes had the cash flows not been hedged.

Most of the foreign exchange transaction risks related to the commercial cash flows are hedged primarily through the use of currency forwards and swaps. As Fiskars Group does not apply hedge accounting to these currency derivatives, both the realized and unrealized gains and losses on the derivatives are included in the income statement.
